

# 2006 Montana Youth Range Camp

## Rangeland

July  
10th - 14th

### MONTANA'S LARGEST ECOSYSTEM

*This year's camp will be held at the Farmer's Union Arrowpeak Camp located 40 miles east of Great Falls and is surrounded by the beauty of the Highwood Mountains. The 144-acre mountain property offers visitors the opportunity to see the scenic outdoor spaces of Montana.*

Campers age 12-18 will be introduced to 25 of Montana's important range plants—grasses, forbs, and shrubs—and will learn about the interaction of soils, water, plants, wildlife, and livestock on the range. The camp provides an excellent opportunity for youth of varying backgrounds to become more aware of the value and potential of Montana's rangeland. This well organized, balanced, and educational program brings together range professionals and interested students to learn in the great outdoors. Evening programs and activities allow campers an opportunity to meet new friends and develop lasting friendships.

- *Plant ID/Anatomy*
- *Soil/Geology*
- *Range Health*
- *Water/Riparian*
- *Range Monitoring*
